sales and promotional materials, and every time anybody asks you about your ebook.

In addition to promoting your books assiduously online, there are a number of other methods that can allow you to promote more books.

One is to give something away free of charge along with your book, such as a valuable bonus item. Or bundle a number of ebooks below one price, which lowers the price for every ebook in the event that they have been sold separately.

An effective technique for determining a price is to ship out a survey to your present customers. If these prospects have already purchased an ebook from you, ask for his or her opinion when it comes to price. Do that by making a gross sales page for the brand new book, however don't include a value on that page. As an alternative, add a lot of links to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

Another technique is to test out costs by making a number of duplicate gross sales pages with completely different prices on each page. Be certain that your gross sales copy is strictly the identical on every page, and contains your promoting-deal with sentence. Then figure out for every web page the conversion ratio between guests to your website and gross sales of your book. This will let you know what your optimum price is.

In the end, in case you've written a e-book that solves a drawback or presents a new approach, your e book will usher in both traffic and profits. So make sure you write that promoting-deal with sentence that sums up what drawback your ebook solves and what the advantages of your 854 e-book will be to the shoppers who buy it. And then watch your market come to you!
